Laptop store

1,3d,Vantage plaza,mg road,adyar,Chennai-41

Adyar depot signal/near adyar police station

044 42154348,9566219995

If you see gibberish, lines, or a solid color on the screen, connect an external monitor and switch to that display (if you can). If the problem is evident on the external monitor, the issue is likely with your laptop's motherboard or video circuitry, not the display. If the external display works properly, the LCD or the cables leading to it are the likely problem
