

## My Dell Studio 15 hard disk problem

Posted by delladmin - 29 Dec 2016 05:10

---

Resetting the System Setup (BIOS)

to its Default Settings

Option 1:

Reboot the computer.

When prompted during POST, press the `F2` key to enter the setup screen.

On the System Setup screen, press the `F5` key to move to the Exit menu.

Press the `F5` key until Load Optimized Defaults is highlighted.

Press the `Y` key on Yes to Load Optimized Defaults and restart the computer.

Option 2:

Reboot the computer.

When prompted during POST, press the `F2` key to enter the setup screen.

On the System Setup screen, press the `F5` key.

Press the `Y` key on Yes to Load Optimized Defaults and restart the computer.
