Dell Vostro Battery Charging Disabled.Hw to enable
Posted by delladmin - 30 Dec 2016 05:23

_____

Hi,

Please do try these troubleshooting steps that may help.

- First is to uninstall/reinstall the battery driver from Device Manager.

- If it will not work, do a hard reboot unplug the AC adapter then press and hold the power button until the laptop shutdown completely.

- Boot it back up and observe if it will charge or not.

- If the same problem will persist, do run System Restore. Restore the laptop to an earlier date when it was working normally.
