_____

Hi,

I got my new XPS17 (i7 + Novida GT445M), when I hook it with TV with HDMI cable, The TV was showing" No SIgnal". I try to find where to enable the hdmi out from control pannel, I can't find it.

 I tried to enable the extended mode, it doesn't work. I also updated all video dreivers from dell's website. Still doesn't work. The opteration system I use is Win 7. I wonder if somebody know how set enable the hdmi video out?

Thanks in advance!
