Inspiron 1626 mystery led blink code
Posted by admin - 30 Jun 2012 18:25

_____

greetings.

I have a a inspiron 1526 that won't boot. the fan comes on and the leds blink: numlock solid, caps and scroll blinking. I can find dell support documents detailing the blink codes for other models, but not the 1526. Does anyone know the meaning of 1526 blink codes?
