Laptop store provide laptop repair facilities for Dell laptop models at prices which are up to 60 per cent lower than the other Service providers. Usage of state-of-art machineries, equipments and machineries, highly trained manpower, and usage of high quality components help us in good quality services. Some service provider won t repair laptop on chip level and card level repair cost is always expensive There is an unorganized small service industry who try to make up this gap but because of lack of technical expertise, non availability of genuine and new components and ICs they could not meet customers expectation. More over chip level machineries and equipment cost is very high and as a result using low cost and improper machineries reduce the life of these gadgets and sometime irreparable damage. Then only one option left to the customer to buy a new laptop. The main challenge for all common users even corporate is to get quality service at reasonable cost that is our motive and we provide to the customers
